

Rye Park Wind Farm Construction Update

Week commencing 20 March 2023

Construction Updates are released fortnightly and include a summary of construction works undertaken and a look-ahead of upcoming works.

The 396 MW Rye Park Wind Farm project is bringing investment and jobs to the region. We would like to thank the Rye Park community for your continued support and patience and we are looking forward to seeing the wind farm taking shape over 2023.

Road repairs and maintenance

Grassy Creek Road repairs are underway with sealing to start by the end of March. The repair design for the flood damaged section of Grassy Creek Road has been approved by council. We're working with our contractor on the timing for these works and expect to be able to confirm this soon.

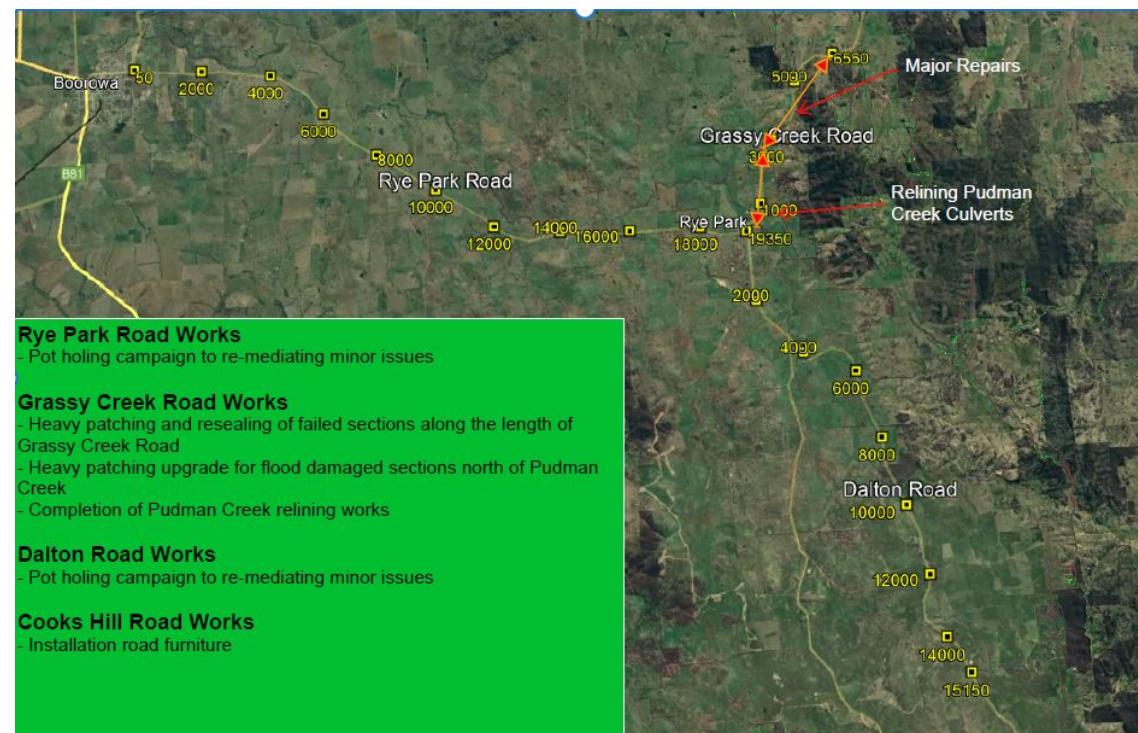

In March we are also undertaking works on Rye Park Road, Dalton Road and Cooks Hill Road (see map).

Oversize-Overmass (OSOM) wind turbine deliveries

Turbine component deliveries continue Monday through Saturday. Where possible we will schedule OSOM deliveries prior to school zone exclusion times. Please allow extra time for your journey if travelling on the OSOM route in the morning.

Some tips when approaching an OSOM delivery:

- Reduce your speed and prepare to stop if necessary
- Be patient. Do not overtake, you will be given an opportunity to pass when it is safe
- Be prepared for unexpected wind buffeting when given the opportunity to pass
- Follow instructions given by the traffic escort
