

# Rye Park Wind Farm Construction Update

**Week commencing 3 April 2023**

*Construction Updates are released fortnightly and include a summary of construction works undertaken and a look-ahead of upcoming works.*

The 396 MW Rye Park Wind Farm project is bringing investment and jobs to the region. We would like to thank the Rye Park community for your continued support and patience and we are looking forward to seeing the wind farm taking shape over 2023.

## Road repairs and maintenance

The wet weather last week saw some of the planned works delayed, however, **Cooks Hill Road** is now sealed with line marking to take place in the coming weeks.

The outstanding sections of **Rye Park Dalton Road** have also been sealed with the pothole campaign still underway.

**Grassy Creek Road** is being sealed this week along with the repairs to the flood damaged sections of the roadway.

The Project is also going to extend the scope of our road program to repair the flood damaged section of **Trucking Yard Road**. This will make sure it can continue to be used safely by the local community.

## Oversize-Overmass (OSOM) wind turbine deliveries

Turbine component deliveries continue Monday through Saturday. Where possible we will schedule OSOM deliveries prior to school zone exclusion times. Please allow extra time for your journey if travelling on the OSOM route in the morning.

Some tips when approaching an OSOM delivery:

- Reduce your speed and prepare to stop if necessary
- Be patient. Do not overtake, you will be given an opportunity to pass when it is safe
- Be prepared for unexpected wind buffeting when given the opportunity to pass
- Follow instructions given by the traffic escort
