Dear Ms Layton

**DUNDONNELL WIND FARM – REQUEST FOR CONSENT TO INCREASE TURBINE HEIGHT
PLANNING PERMIT 2015/23858**

On 18 September 2017, I received your company's request for my consent to increase the turbine height for Dundonnell wind farm.

Having considered the potential impacts, I have decided to grant my consent in accordance with Condition 6 of the permit to vary the maximum height of turbines so that they must not exceed 189 metres above natural ground level.

I provide my consent on the basis that no more than 88 turbines are installed, and that off-site vegetation screening is extended to all dwellings within five kilometres of a turbine.

As a result of this increase, please ensure that when you prepare the Brolga Compensation Plan (required by Condition 55b of the permit) it is for the taller turbines and uses the most current impact assessment information available.

If you would like further information, please contact Jane Homewood, Executive Director, Statutory Planning Services, Department of Environment, Land, Water and Planning, on (03) 8392 5537 or email jane.homewood@delwp.vic.gov.au.

Yours sincerely

HON RICHARD WYNNE MP
Minister for Planning
