

# Rye Park Wind Farm Construction Update

September 2023

*Construction Updates are released monthly*

Page 1 of 1

The 396 MW Rye Park Wind Farm project is bringing investment and jobs to the region. We would like to thank the Rye Park community for your continued support and patience as we work towards operations in mid 2024.

## Wind Turbine Progress

We continue to make good progress on the wind turbines with 40 now up and ready for commissioning. The commissioning process first involves fitting out the turbines before going through a series of tests to demonstrate they are performing as they should. Over the coming months you will continue to see different turbines spinning as we test them and gradually start increasing the generation. All the the energy produced currently is being put to good use supporting Newcrest Mining's operations in NSW.

## Bird Bat adaptive Management Plan

The Bird Bat adaptive Management Plan (BBAMP) search program has also commenced with an ecologist and specialist dog undertaking the monthly monitoring of select wind turbines.

## Oversize-Overmass (OSOM) wind turbine deliveries

Turbine component deliveries continue Monday through Saturday. Please allow extra time for your journey if travelling on the OSOM route in the morning. Tips for approaching an OSOM delivery:

- Reduce your speed and prepare to stop if necessary
- Be patient. Do not overtake, you will be given an opportunity to pass when it is safe
- Be prepared for unexpected wind buffeting when given the opportunity to pass
- Follow instructions given by the traffic escort

Questions about anything onsite? please contact:

- **Tilt Renewables** Site HSEC Manager Andrew Galland 0447 076 886
- **Zenviron** Site Manager Bruce Cunningham 0409 656 159
- **Vestas** Site Manager Jason Penny 0436 930 270
