

Rye Park Wind Farm Construction Update

December 2023

Construction Updates are released monthly

The 396 MW Rye Park Wind Farm project is bringing investment and jobs to the region. We would like to thank the Rye Park community for your continued support and patience as we work towards operations in mid 2024.

Wind Turbine Progress

With the end of the year fast approaching we now have 51 turbines installed and ready for commissioning.

End-of-year Shutdown

The construction team will be taking a well deserved break over the end of year with site shut from the 22nd of December 2023 and re-opening on the 3rd of January 2024. No deliveries or construction will take place over this period although you may see some movements from our turbine technicians as the continue to monitor the performance of the installed turbines.

On behalf of Tilt Renewables and the Rye Park Wind Farm team we would like to thank you for all of your support and understanding in 2023 and to wish you all a happy and safe holidays.

OSOM deliveries to extend into 2024

Following the end of year break, OSOM movements will extend into early 2024 as we complete the last couple of loads. We appreciate your patience with these delays and will let know as soon as we officially complete the last deliveries.

If you have any questions or concerns about the Project, please contact:

Tilt Renewables Site HSEC Manager Andrew Galland	0447 076 886
Zenviron Site Manager Bruce Cunningham	0409 656 159
Vestas Site Manager Jason Penny	0436 930 270
